

the 'information' and 'communication' fields. The 'information' field is defined as:

...the study of the nature, creation, organisation, storage, retrieval, dissemination and use of information, and the social, cultural, economic and political contexts in which these activities take place. (p. 1)

The 'communication' field is defined as:

...the study of the nature, creation, organisation, storage, retrieval, dissemination and use of communication, and the social, cultural, economic and political contexts in which these activities take place. (p. 1)

The 'information science' field is defined as:

...the study of the nature, creation, organisation, storage, retrieval, dissemination and use of information and communication, and the social, cultural, economic and political contexts in which these activities take place. (p. 1)

The 'information studies' field is defined as:

...the study of the nature, creation, organisation, storage, retrieval, dissemination and use of information and communication, and the social, cultural, economic and political contexts in which these activities take place. (p. 1)

The 'information technology' field is defined as:

...the study of the nature, creation, organisation, storage, retrieval, dissemination and use of information and communication, and the social, cultural, economic and political contexts in which these activities take place. (p. 1)

The 'information systems' field is defined as:

...the study of the nature, creation, organisation, storage, retrieval, dissemination and use of information and communication, and the social, cultural, economic and political contexts in which these activities take place. (p. 1)

The 'information science and technology' field is defined as:

...the study of the nature, creation, organisation, storage, retrieval, dissemination and use of information and communication, and the social, cultural, economic and political contexts in which these activities take place. (p. 1)

The 'information science and communication' field is defined as:

...the study of the nature, creation, organisation, storage, retrieval, dissemination and use of information and communication, and the social, cultural, economic and political contexts in which these activities take place. (p. 1)

The 'information science and communication technology' field is defined as:

...the study of the nature, creation, organisation, storage, retrieval, dissemination and use of information and communication, and the social, cultural, economic and political contexts in which these activities take place. (p. 1)

the 'information' and 'communication' fields. The 'information' field is defined as:

...the study of the nature, creation, organisation, storage, retrieval, dissemination and use of information, and the social, cultural, economic and political contexts in which these activities take place. (p. 1)

The 'communication' field is defined as:

...the study of the nature, creation, organisation, storage, retrieval, dissemination and use of communication, and the social, cultural, economic and political contexts in which these activities take place. (p. 1)

The 'information science' field is defined as:

...the study of the nature, creation, organisation, storage, retrieval, dissemination and use of information and communication, and the social, cultural, economic and political contexts in which these activities take place. (p. 1)

The 'information studies' field is defined as:

...the study of the nature, creation, organisation, storage, retrieval, dissemination and use of information and communication, and the social, cultural, economic and political contexts in which these activities take place. (p. 1)

The 'information technology' field is defined as:

...the study of the nature, creation, organisation, storage, retrieval, dissemination and use of information and communication, and the social, cultural, economic and political contexts in which these activities take place. (p. 1)

The 'information systems' field is defined as:

...the study of the nature, creation, organisation, storage, retrieval, dissemination and use of information and communication, and the social, cultural, economic and political contexts in which these activities take place. (p. 1)

The 'information science and technology' field is defined as:

...the study of the nature, creation, organisation, storage, retrieval, dissemination and use of information and communication, and the social, cultural, economic and political contexts in which these activities take place. (p. 1)

The 'information science and communication' field is defined as:

...the study of the nature, creation, organisation, storage, retrieval, dissemination and use of information and communication, and the social, cultural, economic and political contexts in which these activities take place. (p. 1)

The 'information science and communication technology' field is defined as:

...the study of the nature, creation, organisation, storage, retrieval, dissemination and use of information and communication, and the social, cultural, economic and political contexts in which these activities take place. (p. 1)

the 'information' and 'communication' fields. The 'information' field is defined as:

...the study of the nature, uses and functions of information, and the ways in which it is created, communicated, disseminated and stored. It is a broad discipline, embracing the history, philosophy, sociology, psychology, anthropology, linguistics, library science, information science, communication science, and other related fields. (p. 1)

The 'communication' field is defined as:

...the study of the nature, uses and functions of communication, and the ways in which it is created, communicated, disseminated and stored. It is a broad discipline, embracing the history, philosophy, sociology, psychology, anthropology, linguistics, library science, information science, communication science, and other related fields. (p. 1)

The 'information science' field is defined as:

...the study of the nature, uses and functions of information, and the ways in which it is created, communicated, disseminated and stored. It is a broad discipline, embracing the history, philosophy, sociology, psychology, anthropology, linguistics, library science, information science, communication science, and other related fields. (p. 1)

The 'communication science' field is defined as:

...the study of the nature, uses and functions of communication, and the ways in which it is created, communicated, disseminated and stored. It is a broad discipline, embracing the history, philosophy, sociology, psychology, anthropology, linguistics, library science, information science, communication science, and other related fields. (p. 1)

The 'information science' field is defined as:

...the study of the nature, uses and functions of information, and the ways in which it is created, communicated, disseminated and stored. It is a broad discipline, embracing the history, philosophy, sociology, psychology, anthropology, linguistics, library science, information science, communication science, and other related fields. (p. 1)

The 'communication science' field is defined as:

...the study of the nature, uses and functions of communication, and the ways in which it is created, communicated, disseminated and stored. It is a broad discipline, embracing the history, philosophy, sociology, psychology, anthropology, linguistics, library science, information science, communication science, and other related fields. (p. 1)

The 'information science' field is defined as:

...the study of the nature, uses and functions of information, and the ways in which it is created, communicated, disseminated and stored. It is a broad discipline, embracing the history, philosophy, sociology, psychology, anthropology, linguistics, library science, information science, communication science, and other related fields. (p. 1)

The 'communication science' field is defined as:

...the study of the nature, uses and functions of communication, and the ways in which it is created, communicated, disseminated and stored. It is a broad discipline, embracing the history, philosophy, sociology, psychology, anthropology, linguistics, library science, information science, communication science, and other related fields.
